

Don't Change Safe Harbor to Lock up Victims of Child Abuse and Rape.

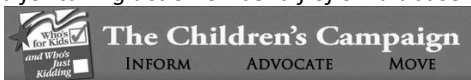

Tell your Legislator Today:
"I do not support proposals that lock up the victims of sex trafficking."

Why?

- The latest proposals are expensive and will be invasive to the liberty of the victim.
- There is no evidence that locking up victims works.
- Victims of child abuse and rape will be re-traumatized and re-victimimized by being locked up.
- The proposals would shift attention and money away from services designed to break the cycle of trafficking.

Thank you for taking action on behalf of child abuse and rape.

A locked-down psychiatric ward or other detention facility or setting where treatment IS FORCED on victims to “deprogram them” is bad policy and does not represent respect for victims.

In our interviews with survivor victims, they say repeatedly, “Don’t lock us up; don’t isolate us; don’t shame us or treat us as damaged goods.”
